## New Features and Enhancements in This Release

### New State Tax Credit Forms

- The new HUD LIHTC Tenant Data Collection form (HUD form-52697) was added. This new form can now be chosen by selecting “HUD” from the state dropdown when you generate a TIC.

### Updated State Tax Credit Forms

- The following forms have been updated, and the new TIC form has been provided for:
  - California – Updated TIC format to be compliant with the form released November 2010.
  - Hawaii – Updated TIC format to be compliant with the form released November 2010.
  - Idaho– Updated TIC format to be compliant with the form released September 2010.
  - Kansas – Updated TIC format to be compliant with the currently released form.
  - North Dakota – Updated TIC format to be compliant with the currently released form.
  - Nebraska – Updated TIC format to be compliant with the form released December 2010.
  - New Jersey – Updated TIC format to be compliant with the form released December 2010.
  - Nevada – Updated TIC format to be compliant with the form released October 2010.
  - Oregon – Updated TIC format to be compliant with the form released October 2010.
  - Pennsylvania – Updated TIC format to be compliant with the form released January 2011.

## System Requirements and Recommendations

The system specifications listed here are general guidelines. Other variables will also affect system performance, most importantly the other applications that are installed and running on the machines that use Management PLUS.

It is possible to run Management PLUS on a wireless network. RealPage is not responsible for data corruption or data loss that may arise due to lost connections, packet loss, or any other network issue that may result from problems with a wireless connection.

**NOTE:** When installing Management PLUS upgrades in a client/server environment, you **must** update both the server and all of the clients so that they are all running the same version of the software. Doing otherwise may cause unpredictable results. For questions about system specifications contact the Support Department.

Standalone Computer & Peer-to-Peer Server	Client
Dual Core processor or better	Dual Core processor or better
1 GB of RAM per concurrent user	1 GB of RAM
1 GB of hard disk space per company	500MB of hard disk space
